Magnify with 29X Zoom in 4K Detail

With impressive zoom capability and awe-inspiring visuals, bring a wide range of objects to life, from detailed maps to the vibrant colors of art projects, and create a truly interactive learning environment for students.

Present Anywhere, Protected Everywhere

Stream content from anywhere with confidentiality assured, now secured by WPA3™ encryption for safer and more reliable computer connection. The robust mechanical arm adjusts precisely to your needs, with the power bank available for added portability.

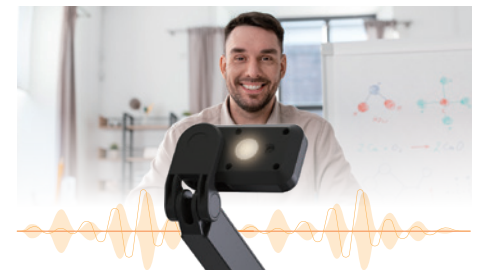

Buttons for Dynamic Teaching

Master your lessons with intuitive action buttons designed by educators for educators. Quick-access keys enable zoom, focus, or capture so you can maintain your teaching flow and seamlessly transition between lesson elements. Keep the energy high and your students engaged as you explore new ideas on the fly.

Clear Sounds and Sights

Capture crystal-clear audio for recordings and distance learning with the built-in microphone. Complement your lessons with LED lighting that ensures optimal visibility, drawing students into every subject across various classroom settings.

Portable Power for Flexible Teaching

Energize your lessons on the go. Simply charge via power bank and teach without being tethered to outlets. Prioritize student interaction rather than worrying about power sources. Perfect for lessons anywhere in your learning space.

IFP Integration: Android™-Powered Teaching Beyond Boundaries

Empower classroom innovation with M11WB's intelligent Android™-based connectivity to Interactive Flat Panel Displays, enabling educators to break through traditional technology constraints and unleash dynamic visual storytelling.
