

Quick Start Guide

1 Setup

Plug in the Huddle Hub One unit

Switch on your Huddle Hub One unit and HDMI display.

At the first start, Huddle Hub One takes a few minutes to start-up and configure itself. During this time the system is not available.

Huddle Hub One unit and apps come with a default configuration, which can be changed according to your needs.

For more information, please download the complete documentation at:

www.hrt.website/support

2 Download App

Windows® / MacOS®

Your HDMI display shows the Welcome Screen. Locate the IP address on the left and connect to it to access the app download page.

Windows

(Windows 7 SP1 or higher)

MacOS

(MacOS 10.11 or higher)

Download is also available at:
www.hrt.website/download

Android® / iOS®

Android

(Android 5 or higher)

Google Play Store

iOS

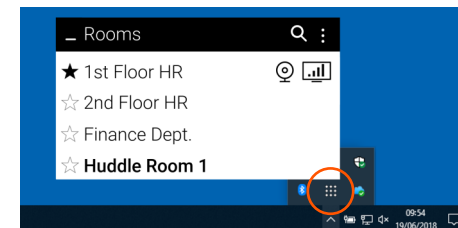

(iOS 11 or higher)

Apple App Store

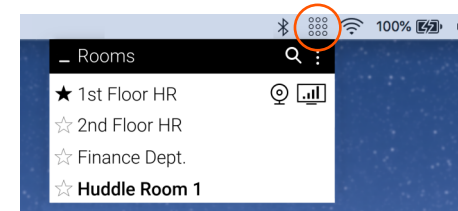

3 Launch App

Windows® / MacOS®

Click the Huddle Hub app icon to open the Toolbar

Android® / iOS®

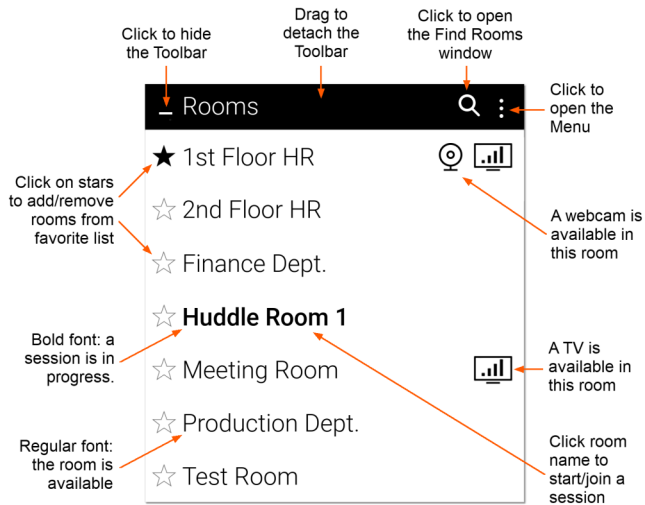

Locate the Huddle Hub app icon and tap it
